Dear Judiciary members,

I am writing to comment on LD677 to update the definition of a machine gun. I ask that you vote "Ought not to Pass". Changing this definition to meet what you want it to mean instead of what it really means, is a dangerous and a foolish thing to do. The definition of what is proposed is not anywhere near what the word really means. I ask that you please vote this to "Ought not to Pass".  
Thank you for your time.
