BATH
LD 677

I OPPOSE the anti-gun bill being heard on March 26th. LD 677 (SP 292) expands the definition of a machine gun and makes it a crime to own a “rapid-fire device” which the bill defines as a device, part, or combination of parts that increases the rate of fire of a semi-automatic firearm beyond its standard rate of fire. This ban specifically references binary-triggers, trigger cranks, forced reset triggers, and bump-stocks, and is an infringement upon my rights.
