South Portland  
LD 1109

I strongly urge you to SUPPORT LD 1109. There is no place for Large Capacity Magazines in everyday life. Target shooting with a weapon with an LCM is simply silly, hunting is not an activity for using such devices, so that leaves shooting the most people in the shortest time as the main use of these weapons. That's horrific and there are depressing numbers of mass shootings where the use of such devices have resulted in multiple deaths of perfectly innocent people, including many children. Please use common sense and APPROVE THIS LAW that will criminalize possession of such devices. We will all be safer if you do.
