LD 1126

Chairpersons Senator Anne Carney and Representative Amy Kuhn and members of the committee,

As a concerned citizen, neighbor, friend and person of faith, I am testifying in favor of LD 1126. I believe that it is a moral imperative to stop gun violence in our communities. Guns that cannot be traced are a real and significant threat to our safety. They impede law enforcement investigations and proliferate the availability of lethal weapons to criminals and those who cannot pass a background check to legally possess a weapon.

Please vote "ought to pass" to make Maine safe from untraceable firearms.
