

Stephen Whitney
Kittery
LD 1109

This is infringement and unconstitutional.

3 out of 4 magazines are more than 11 rounds. 16-30 round pistol magazines have been standard for decades. 10 round are small capacity. Sporting rifles come with and have been standard at 30-40 rounds since before I was alive. Using improper definition is dirty pool. Please stop using politics to remove my god given rights to protect myself, my family and the public with the best available options. I personally have money invested in weapons, and a good amount of training for my personal protection, that do not offer a 10 round option.
