LD 886

Dear Members of the Maine Legislature,

I am writing to strongly oppose LD 886, "An Act to Regulate Medication Abortions."

Access to comprehensive healthcare, including abortion services, is fundamental to ensuring the dignity, health, and economic security of women and families in Maine. Chemical abortions are proven to be safe and effective and comprise the majority of abortions. They are particularly important for women who have more limited access to healthcare providers and are crucial to avoiding more invasive surgical abortions.

This law would disproportionately affect our most vulnerable residents, exacerbating healthcare outcome inequities and creating additional barriers to essential healthcare.

I urge you to oppose LD 886 and affirm Maine's commitment to its women and families.

Thank you.
