I see on the calendar at 9:30 there are a number of bills about abortion. I am asking that you stand with women on their right to choose what is best for them. I have had 3 miscarriages and it is extremely difficult. What would have been worse were if I then had to worry about help when I needed it. Could you imagine having to carry a dead baby to term? Or bleeding in a parking lot because doctors are afraid? It is barbaric. And it is happening! My health, my doctor, my choice.
