

John Mills  
Newcastle  
LD 682

Thank you for the opportunity to address this committee. My name is John Mills. I am a resident of Newcastle. I urge you to vote against the anti-abortion bills coming before this committee. LD 682 "An Act to Amend Certain Laws Regarding Abortions" changes the standards for when an abortion may be performed from a qualified medical provider over to a set of criteria set by legislators. Restrictive reproductive laws in other states have resulted in more women dying from pregnancy complications and an exodus of healthcare professionals to other states. I am asking you in the strongest possible terms to vote NO on this bill.
