LD 975

The legislature has no place to regulate the medical decisions of women. Debra Rabinowitz
Belfast

LD 975 should be voted down and the legislature should put their efforts into addressing the many needs of the constituents of this state. From poverty to homelessness, drug addiction, and many more challenging issues, you could turn your focus to improve the lives of the people within the state of Maine.

Please vote no on LD 975. Women handling health issues should not become a crime.
Thank you.
