

Bonnie Sand
ROUND POND
LD 975

My name is Bonnie Sand. I am a retired physician. I care deeply about life and safety of the people of my community. I believe that LD 975 to repeal abortion will cause women to make unsafe choices regarding termination of pregnancy. I believe that the choice belongs to the individual woman and her doctor, not the criminal justice system or those that have personal beliefs about choice. Many women who cannot at the time they are pregnant feasibly continue it. If they do not have access here in Maine they face traveling to another state. For many this isn't possible. This bill does not reflect what most Mainers feel about choice. Do not support this bill. It is unfair to women, especially those who cannot just pick up and go elsewhere for these services.
