Senator Carney, Rep. Kuhn, and Members of the Judiciary Committee:

My name is Pat Truman of Hallowell and I strongly support all the pro-life Legislative Bills that have been submitted to you (namely, L.D.975, et al). These bills will help to restore sanity and regulation to a State that has gone completely off the rails RE: life issues.

May this Legislative Body take some initial first steps to undo all the horrendous damage that has been wreaked upon Maine citizens through past Legislative sessions. Life has been made a "throw-away commodity" through their actions! It's time to reverse this mentality!

A good starting point is to vote "Ought To Pass" on all the bills before you. Thank you. Pat Truman

Note to Committee Clerk:

Please make copies available to all members of the Judiciary Committee.
