

Kate Webb
Canton
LD 682

I am a 34-year-old woman who wants to become pregnant in the next year. As I am nearing the age of what they call "a geriatric pregnancy," I am afraid of losing access to reproductive health care that I may need to save my life. Please vote no on LD 682 to ensure that all people in our state have the right to control their bodies and have access to the health care they need.
