

Kate Webb  
Canton  
LD 1007

I am a 34-year-old woman who wants to become pregnant in the next year. As I am nearing the age of what they call "a geriatric pregnancy," I am afraid of losing access to reproductive health care that I may need to save my life. Please vote no on LD 975 to ensure that Mainers have the right to control their bodies and have access to life-saving health care they hopefully will never need.
