LD 958

I am writing in support of LD958, An Act to Prevent Eminent Domain on Tribal Lands. The Wabanaki are sovereign people who have the right to decide what to do with their land, and should not be subject to eminent domain. They continue to be punished for the Indian Land Claims Act of 1980. There is no reason for this. Let's treat them like the intelligent people that they are and allow them to make decisions for themselves.

Thank you.
