xLD1351, "An Act to Require Antisemitism to be Considered Motivation When Determining a Violation of a Criminal or Civil Violation" appears likely to be used to intimidate American citizens and others in our national borders, to prevent or penalize their constitutionally guaranteed rights for free speech. I am among many in Maine who don't want any abridgment of free speech and don't agree with our national government's policies regarding Israeli aggression in occupied Palestinian territories. Such criticism of U.S. policies and decisions does not reflect antisemitism but criticism of Zionism and its long history of violence and forcible domination of the populations of the Palestinian people.
