Litchfield
LD 1351

I wish to testify against LD 1351. These types of laws are being used to stifle dissent. Dissent is not antisemitic. This definition of antisemitism is being used to quash criticism of the authoritarian government in Israel, and its devastating war on Palestinians. As a Jew, I find it appalling that people who have never worried about antisemitism in Maine are suddenly using this as a front to discourage support for the Palestinians. With this law, I would feel less protected than I do now. This law would directly affect my free speech rights. Please do not vote for it.
