LD 1351

Dear Members of the Judiciary Committee Members,

Please vote no on LD 1351. This harmful law equating antisemitism with speaking out against the genocide conducted by Israel puts my Jewish friends and family in danger.

People around the state, have walked arm in arm with Jewish neighbors, speaking out loudly and clearly denouncing the genocide. This is not antisemitism and conflating it with that is a dangerous path to go down.

I urge you, vote no on this harmful bill.
