LD 1351

I urge the committee to stop LD 1351. As a retired professor, I am well aware of the value of free speech and the right to protest. This bill conflates anti-Zionism with antisemitism and that definition threatens our rights to free expression and dissent. It is deceitful to cloak anti-Zionism as antisemitism when the war crimes of Israel as a political state are endangering the lives of all of us, including our Jewish populations. Please reject LD 1351.
