VOTE NO on LD 1351 !

Criticizing Israel UPHOLDS Judaism and Jewish law. It is not antisemitic! Zionism is not a part of Judaism There are many Christian Zionists . Zionism is about imperialism and subjugation,. The Israeli government, Zionists and the Nazi's have the same philosophy of ethnic superiority and ethnic cleansing. They have mass extermination in common. I am well aware of this. I am Jewish.

The Nazi's engaged in genocide against the Jews and now the Israeli government and those that support them are supporting the genocide of the Palestinian people! Being a survivor of a crime does give license to carry out the same crime on others. Those perpetrated against can become the perpetrators.

Why condone and support mass extermination via bombing assassinations and mass starvation? I am sure the representatives of Congress do not wish to be responsible for supporting genocide in their life record.

LD1351 is antidemocratic and a cover up for suppression and genocide!

Not differentiating between Zionism and Judaism creates antisemitism! LD1351 is based on a false premise and goes against our fundamental rights! Support justice, the Palestinians,, Judaism and Democracy!! VOTE NO on LD 1351.
