LD 1351

I urge you to vote ought not to pass on LD 1351. Confusing antisemitism with criticism of Israel's genocide in Gaza is morally wrong and illogical. Many Jewish people object to the Zionist occupation and oppression of the indigenous people of Palestine. Zionists have made the claim for decades that they represent all Jews worldwide. They do not, and just a glance at the advocacy efforts of Jewish Voice for Peace will demonstrate that.

I am a retired teacher who taught The Holocaust and Other Genocides for years. My students knew the true definition of antisemitism, but the author of this bill would have flunked my vocabulary quiz.
