LD 1299

Hello,

As you can likely tell by now in this session of the legislature, Mainers are tired of gun control. It is not in line with what the citizens are seeking and in a period of time where the need for self-defense is more important than ever, how someone stores a firearm in their vehicle should not be decided by a government that fails to keep them safe to begin with. Furthermore, this law seeks to punish the victims of a crime instead of correcting the crime itself and its rising rate. This governmental body continues to attempt the degradation of Maine citizens and their constitutional and civil rights. If that wasn't enough, you then seek to punish victims, instead of keeping the people you are sworn to serve safe from property theft. This is a testament to how out of touch you are with what Mainers want from their government. Please oppose LD 1299 and don't punish victims of crime.
