LD 1120

Dear Sen Carney, Rep Kuhn, and members of the committee, I am Janice Vance and I live in Kennebunk. I urge you to vote "ought to pass" on LD 1120. Unfortunately, some gun owners view their firearms as little more than fashion accessories, or forget they even have a firearm in their possession, and leave them in places where it's easy for kids or teenagers to find them – in purses, bedside tables, the top shelf of a closet, under car seats, in the glove compartment, etc. – often loaded, unlocked and unsecured. Guns are also frequently stolen from cars. It is important to remind gun owners to take safety more seriously, so that it becomes a regular habit. This bill does all that.
