This bill is just absurd. Call kids what they want to be called. I went by multiple different nicknames over the course of my school career, and somehow no one ever needed my parents' permission to call me by whatever name I asked them to. Why is this something cisgender kids have been allowed to do forever without a problem but suddenly when a trans or nonbinary child wants to go by a different name, we need legislation to put a stop to it? This is blatantly discriminatory and a waste of our legislators' time.
