

David Brinkman
Windham
LD 233

LD 233, LD 868, LD 1002, LD 1134 & LD 1704 ought to pass. All these bills are proposed to preserve the rights of women, especially school girls in their respective private spaces and activities. It's obvious that an omnibus bill to accomplish the spirit of fair competition and/or gender autonomy is not legislatively reflective of the Title IX incumbent law. Thus, all these bills in their targeted specificity will make women of any age safe from the imposition of non-girls. Trans-girls are not girls or they would not be so designated. Please protect Maine's girls and vote to pass this common sense legislation.
