Female students and females in general need to feel safe in sports, in rest rooms, in public places, et al.

Transgender men want to infiltrate all those safe places.

And, people who have no common sense seem to think it's ok.

I do not understand the mentality of this. It should be a non-issue. Should not even be a political one!

Boys play in boys sports-use boys restrooms and lockers-treat girls with respect and dignity. Where are the parents of these boys that want to pretend to be girls.

Absolutely awful, awful, awful!!!!
