

Sandra Corcoran
Bingham, Maine
LD 1134

Please, let's not go backward in our search for the good life for all people. Women are now allowed in combat while serving their country. I'm sure that separate facilities aren't always available under combat conditions either. The current guidelines and practices of the Maine Principal's Association have been sufficient up to now and should continue to be the ones used. Please do not pass LD 1134 and limit the lives of the few trans athletes that there are. Perhaps all athletics should be unisex and based on ability only.
