Windham  
LD 233

I am writing in strong support of LD233. I believe the Maine HRA gender definitions undermine the letter and intention of Title X and I do not want my state tax money funding males playing in female sports. I believe the strong majority of Maine voters do not support males in female sports and I hope this legislature recognizes that and acts in our interest. My mom is a lifelong liberal, as I was until 2020 when I started reading more than just the headlines provided on mainstream media. My mom only listens to NPR all day and does not agree with Janet Mills, that of course males are born with different anatomy and shouldn't compete against girls. Thank you for your consideration.
