

Sondra Day  
Newburgh  
LD 868

This is concerning LD#868.

This is concerning Title IX. I don't believe that transgender boys should be playing sports with girls. These males are in the girls locker rooms showering with the girls and using the girls bathrooms. That should not be happening in our schools. It puts the girls at risk and also is uncomfortable for the girls. A transgender boy has a lot more strength than a girl because they have more testosterone. It is just common sense that they should not be allowed to play sports with the girls. If this is a democratic society than make it a democratic society, as the majority of people in Maine don't want transgender boys to play sports with girls.
