

LAURENT GUILLETTE  
CALAIS  
LD 868

I oppose all of the bills, every single one. My position was cemented after having had a conversation with my granddaughter and her friend. They are 11 and 12yrs. old. The friend was extremely upset with trump and his bullyish, childish actions towards Governor Mills and his treatment towards transgender students. This young child has autism, yet she demonstrated more empathy, intelligence and insights on the current fascist regime and could see the comparisons to Hitler than, obviously, the very republicans that have brought forth these bills. We should all be ashamed of ourselves for letting this civil upheaval get to this point. Jan.6th should never have happened. It's time for all of us to take the lead from our own children. GROW UP!
