Dear Elected Officials,

I am writing to you in support of Trans youth to be allowed to participate in the sports of the gender they identify with. I find it unbelievable that we are unable to accept that these children through no fault of their own, are being victimized by others for wanting to be who they are. We should be embracing their right to be comfortable in their own bodies without it becoming a public event. We need to allow them to be who they want to be. The state of Maine is at the forefront of advocating for the rights of others. This should not be even an issue. Please do not take these young persons rights away from them. This is a hard enough time, they have been going through. Acceptance is so crucial to their well being.

Sincerely,
Cynthia Aller Magill
