Each year, Christian Nationalists wrap themselves in bigoted religiosity and feigned righteousness to denigrate and dehumanize their fellow Americans by attempting to make their lives illegal with bills like this one. Their partners in this effort are white supremacists. Their common goal is to ensure that white Christendom maintains its dominance in our society. Neither of these groups really care that the targets of their aggression are gay, or queer, or trans, just like they don't care about the sovereignty of a zygote. What they care about is raising white birth rates and maintaining white, Christian power in American society. They see the LGBTQIA community as failing to support their white childbirth programs. ALL anti-gay and anti-trans legislation is driven by entrenched white supremacy.

This bill offers a solution to a problem that doesn't exist, because the threat posed by trans athletes doesn't exist. Why would a rapist go to the trouble of pretending to be trans to sneak into a women's shelter, when 97% of rapists never get convicted of a crime, anyway? You want to protect women from assault? Fund shelters, process rape kits, support yellow flag gun laws, and prosecute perpetrators.
