Windham  
LD 1432

LD1432 has my complete and total support to pass into law! The removal of consideration of "gender identity" from the Human Rights Act would solve many issues in the forefront of Maine citizens right now. While I sympathize with people who have an issue with their biological gender and identify with another gender, the "rights" they seek in their identity violates the "rights" of others in profound, personal, physical, emotional, and unsafe ways. They deserve to have special accommodations and assistance to deal with their identity issues but not at the expense of the vast majority of others. We do not give drivers' licenses to people who are blind because they desire the right to drive!
