LD 1337

I am writing in strong support of LD 1337 and LD 1432. These are common-sense bills that uphold fairness, safety, and respect for biological women.

It is both inappropriate and unsafe for biological males to access female locker rooms, bathrooms, shelters, or to compete against biological females in sports. Doing so undermines decades of progress made under Title IX and disrespects the rights and dignity of biological women and girls.

It is deeply concerning that many policymakers in Maine are ignoring the voices of the public. Surveys consistently show that the vast majority of Americans—approximately 80%—oppose allowing biological males to compete in female athletic competitions.

Maine must fully comply with Title IX, a federal law designed to ensure equal opportunities for women. State policies that conflict with this federal mandate should not stand.

I urge you to support LD 1337 and LD 1432. These bills ought to pass.
