LD 1432

My name is Abigail Perry.

I see 2 issues with this bill.

The first. What a slippery slope this will turn out to be. Removing Gender Identity today, Sexual Orientation tomorrow and Religion the next. What will the conservative Christian right have to say about that?

Second, similarly. First they came for. While I may not be transgender, I have family members and friends who are. So I am standing up for them. Because pretty soon, it will be a group that I am a part of, and I hope there are still people standing up for me when it comes to that.

Please vote ought not to pass from committee on this bill.
