

Mary Pray  
Brunswick  
LD 1337

I am a registered voter here in Maine who supports President Trump, and I am submitting the same testimony here that I submitted for LD 868. One of my five children voted for Kamala Harris in our last presidential election. We don't often talk about politics, but he did tell me that there was one part of President Trump's agenda that he did support. That was that biological men do not belong in women's sports. Maine's present policies are on the wrong side of this issue when even my uber-liberal son understands the importance of protecting Title IX for biological women.
