

Jennifer Temple
Lincolntonville
LD 1432

I want to express my concerns regarding this bill because it's important to advocate for the rights and well-being of all people, and that includes trans people. I urge you to consider maintaining gender identity as a protected category under the Maine Human Rights Act. Protecting gender identity is crucial, especially given the recent bills that have focused on the lives of trans kids and trans women. I hope we can work together to foster understanding and support, rather than create divisions. In a world where acceptance and love are so vital, let's focus on protecting the rights of all individuals, including our trans and queer community members. For this reason, I oppose LD 1432 and I urge you to do the same.
