

Senator Carney, Representative Kuhn, and Honorable Members of the Judiciary Committee.  
Thank you for this opportunity to submit testimony. My name is Cyr Cronin and I am a resident of Sanford.

I am urging the committee to OPPOSE LD 233.

At the beginning of the year, Rep. Libby made a post that included images of a maine student athlete and publicly outed them as transgender. This became a nationwide incident that resulted in the school having to increase security in order to keep its students safe. The president of this country chose to make matters worse by threatening funding to essential services, All of this because a student competed in a sports event.

After the post was made, the state house voted to censure Libby, which since she has still chosen not to apologize for the incident. While thankfully, we will soon consider having a law to prohibit the doxxing of minors, it does not undo the damage already done.

I bring this up for the committee today to consider the consequences of state mandated exclusion of transgender students from sports teams. What happened with that incident is only the beginning should this bill pass. This is discrimination based solely on the sex of an individual, to target a minority community. While supporters of this bill frame this as “protecting girls”, it will not.

If this bill is passed, Girls all over the state could be under investigation for simply not fitting a societal expectation of what a girl is supposed to look like. The obsession with enforcing stereotypes of femininity, has resulted in girls being targeted with harassment and threats of violence. We should not wait until enough cisgender girls and women are falsely accused of being transgender in order to realize the consequences of this type of legislation. Girls are allowed to be strong, to dress and appear however they like, and it should not be the agenda of our legislators to make girls feel the only way to be accepted in sports is to adhere to toxic femininity standards.

The sensationalization of the “debate” of transgender girls in sports (or public life in general) has completely glossed over the fact that only a handful of student athletes are transgender.

Hypothetical scenarios (Made up) of “boys” taking over girls' sports is NOT justification for this bill to pass. It is not justification to open all girls to scrutiny and harassment.

Let students play sports, and stop with this obsession with transgender people.

I strongly urge the committee to vote “ought NOT to pass”

Thank you.
