RE both bills LD1259 and LD1971

There should be no cooperative relationship in which local law enforcement aids in any way in deportation of legally residing people. Neither should local or federal law enforcement law enforcement agencies be taking any training, uniforms, equipments, or monies, from Israel, mossad, or AIPAC.

Furthermore, the foul cry of 'antisemitism' and attempts to make criticism of the zionist entity illegal are a thinly disguised, long campaign against free speech in this country.

There should be no dual loyalty with a genocidal state, all be it the US is equally complicit.
