

Erica Dubois  
Bangor  
LD 1259

Dear Members of the Judiciary Committee,

I write to support Rep. Rana's proposed LD 1259, which protects our 10th Amendment rights under the Constitution. Simply put, Maine Law Enforcement should serve the interests of our citizens, not of federal government agencies. Maine local and state police should focus on keeping our communities safe, not on detaining nonviolent immigrants, and Maine people should not foot the bill for federal immigration enforcement. We should reject federal overreach in every form, and especially when it diverts Maine taxpayer dollars from their stated purpose.

Thank you for your time,

E.C. Dubois
