ELLSWORTH
LD 1259

Hello Legislators,

I, as a Maine resident, adamantly support LD 1259 believing that All People in our country deserve the constitutional right of due process. ICE activity should be separate from police activity.

I do not want my community to become afraid or wary of our local police, nor do I want them forced to carry out ICE activities which distract from their purpose protecting our community.

Thank-you,
Lucy Leaf
