LD 1971

Please support LD 1971. ICE agents are acting without court ordered warrants. Until that changes, Maine law enforcement officers need the protection offered by this Bill. By spelling out these officers' duties, in the face of ICE's illegal kidnappings, all those involved with Maine law enforcement will be spared future charges of illegal, criminal behavior.

Under the Constitution, people have protections from illegal seizures. I understand a police officer should present his badge, show a court ordered warrant and only then arrest a person, if that person is not in the middle of committing a crime.

Please pass LD 1971 to protect all of us from illegal seizures and protect our law enforcement officers.
