To all Judiciary committee n those involve,  
It is time for MAINE try to out parole as so many prisoners have been in prison so long n have learned so much fro mistakes they made when kids growing up.  
We cant keep them in forever n so may have earned second chances,,my nephew has been in prison since his 19th birthday n now 57,,he has done so much good for the prison systems n those who he works for..they have done good by him..but now for him & all the others who have bene in prison most of their life,,give them a chance..do you know how many were abused a children? drove them to those folks who help them go wrong..but prison was huge adjustment n now time to try parole as MAINE is 13th state left who have no parole..it is money in MAINES pocket n tax payers if prionser are ready to be released,,thank you Calista Cross
