

Lucy Britt  
Portland  
LD 2106

Hello members of the Judiciary Committee. I am writing in support of LD 2016. It is very important to me that my neighbors be protected from unwarranted search and seizure in places that should be safe: schools, healthcare settings, libraries, and daycares. The Constitution of the United States is only as strong as it is protected, and I am proud to be living in a state that protects the Constitution and its protections for all of us. Please approve LD 2016 to uphold the 4th Amendment of the U.S. Constitution and make our communities safer.
