

Allison Canatsey  
Scarborough  
LD 2106

I, Allison Canatsey, believe that ensuring the proper judicial review of ICE operations in Maine will bring peace of mind, however small, to the vast group of Mainers that are being threatened and intimidated by ICE. LD 2106 is protecting a basic human right, which is the freedom to exist without fear of unlawful attacks. It sickens me to watch these events unfold through my screen and right outside my home, and this is the very least we can do to protect the children, parents, and community members that contribute our beautiful state.
