

Greetings, my name is McKenzy Chamberlain and I am a resident of Scarborough, Maine. I believe it is necessary and vital to the wellbeing of our communities in this state to support LD2106 An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review because our communities in Maine are terrified. People cannot leave their homes, go to work, get groceries, for fear of being kidnapped off the street and disappeared by ICE agents. Classmates, neighbors, friends, community members, strangers of whom I've never ldmet but are nonetheless deserving of safety and freedom no longer have access to that which this country stands for in the wake of ICE's ongoing activities, therefore we must mitigate it with LD2106. Every day I wake up to news, which major media will not cover, about people not much different than I being captured and corralled like animals, and it must be dealt with.

Our libraries, hospitals, and schools deserve to live not in fear of raids, kidnappings, and even loss of life such as Renee Nicole Good and Alex Pretti. LD2106 will help ensure these vital institutions of our society are not put in danger by requiring ICE to possess a valid and legitimate judiciary warrant as well as ensure the protection of a person's immigration status. As a Mainer, I must urge for the support of LD2106 to keep our schools, libraries, daycares, hospitals, and others safe for the sake of our community.

Thank you for your time and consideration today.
