

Megan Crump  
Portland, Maine  
LD 2106

I am testifying in favor of LD 2106 on Thursday, January 29th 2026 at 1pm. LD 2106 protects Maine's valuable community members; children, parents, teachers, healthcare workers, and our neighbors. LD 2106 will help ensure ICE is denied access to both public and private areas such as schools, health facilities, daycares and libraries without a valid judicial warrant. Under the current administration, immigration enforcement is broad and indiscriminate. ICE is responsible for a large scale public health crisis, a manifestation of corruption and social injustices. ICE has been harassing and kidnapping our community members. Now with their new operation underway in Maine, the need for LD 2106 is heightened and even more urgent. NO ONE deserves to feel unsafe and fear that they may never see their family again. NO child deserves to be carrying the burden of pre meditated grief, preventing them from being able to leave their home. The fact is that when people are in fear for their lives, they cannot meet their basic needs such as leaving their homes to feed themselves, or seeking necessary access to healthcare. ICE is harmful. Do it for the principles of basic human rights.
