

Kevin Curnin  
Topsham  
LD 2106

It is imperative that we put public health and common sense, as well as dignity and respect for the rule of law, above over-zealous law enforcement. LD 2106 will not impede necessary and reasonable immigration enforcement. It will instead protect children and families seeking to access schools, libraries, day care and healthcare facilities. In addition, it will support and guide nurses and teachers who might otherwise get caught up on dangerous over-reach by ICE, which has now proven itself to be out of control, ruthless, and deadly. Pass LD 2106!
