LD 2106

As a social worker and your constituent, I urge you to support LD 2106. As community members, we are all witnessing how fear of immigration enforcement is preventing families from accessing schools, healthcare, and critical services. When immigration enforcement is present in or around schools, hospitals, daycares, and libraries, families may feel too afraid to use critical services. This fear can lead to students missing classes, parents staying away from school activities, and a breakdown of trust within the community. Maine cannot afford these negative consequences. LD 2106 helps ensure that vital community spaces remain dedicated to education, health, and belonging, and that enforcement actions follow proper judicial procedures. This approach safeguards children, educators, and service providers, while fostering an environment where all students can succeed. LD 2106 ensures due process while protecting the places where vulnerable people seek help. Please vote YES on LD 2106.
