

Elizabeth Davidson  
Portland  
LD 2150

I am writing in support of LD 2150 to establish procedures restricting ICE access to non-public areas of schools, hospitals, and childcare care centers. The emotional harm being inflicted by this agency as it conducts its unconstitutional reign of terror on our communities is irreparable and must cease immediately, and this bill is a small, small step toward controlling how ICE agents access and interact with Maine's families and children. This is an emergency. A crisis. I implore the Judiciary Committee to support this bill.
