Freeport
LD 2106

I support LD 2106. Immigration enforcement should never be allowed to enter our public institutions: Schools, libraries, hospitals, child care facilities, or any other health and educational facilities. When immigrant communities -and in particular Black, Brown, and Indigenous people - are made to fear these spaces, the harm extends far beyond immigration policy. LD 2106 will keep our communities safer and ensure these institutions remain accessible and trusted by everyone in Maine.
